Obiettivi ed elementi di innovazione

IYP 2016 aims to increase awareness of pulses globally, and to increase demand, utilization, and production of pulses worldwide. From small seeds, the students were able to grow their scientific knowledge, linguistic and cultural skills, creativity and openness to the world using new technologies of communication.

Risultati

Describe the results achieved by your project How do you measure (parameters) these. (max. 2000 characters):

The students from all the world were invited to collaborate on the European platform eTwinning. They realized collaborative publications developing their digital skills (Bean growing journals, Collaborative Stories, Proverbs and recipe publications) They were also encouraged to act individually: Eating more pulses and promoting them A survey of 182 students from 13 schools of the project shows that 86% know that pulses are interesting for their contribution in proteins.

How many users interact with your project monthly and what are the preferred forms of interaction? (max. 500 characters):

More than 500 students from 38 schools all over the world participated to the project. Most of them were primary or secondary schools, but also kindergarten, school hospital, and special needs institution.
